

How to cast your ballot on Zoom:

A few routine polls will be taken by a raising of your hand when called for.

When a vote is called for, you will be presented with an onscreen ballot like this:

End Poll

Each ballot will include instructions telling you how many you may vote.

We encourage each participant to have your own device during the voting process.

If there are people with you who cannot sign on to a distinct device, first please enter your vote on the Zoom poll. Then have everyone else with you enter their choices on the “CHAT” function of zoom with their name attached. To make their selection private, they will enter a “Private Message” directly to the Officer of Elections (selected during the meeting). That Officer will tally the votes and publish the results.
